Large Underground Wastewater Disposal Systems are required to have their systems routinely maintained by a person certified as Level 2 or 3, depending on the type of system. Most systems can be maintained by a Level 2 person. Details of what is necessary to inspect on the system, at what frequency and reporting rules are detailed in rules R317-5- 1.4 or in the Operating Permit issued to the owner. All Large Systems must apply for an Operating Permit no later than January 1, 2010.
